

## Product Bulletin Zilmet Activflo For Kitchen and Bath

August 31, 2021

Enhance your customer's experience by selling a whole-house Activflo Catalytic Water Conditioner with your Kitchen and Bath fixtures and appliances. Keep them looking clean and bright.

Fixtures and appliances will look and perform at a **high quality** with an Activflo because hard water will not stick to faucets, counters, or glassware. Activflo will also prevent build-up of calcium in pipes and on heat exchangers.
